**PRIMARY EXAMINER**

Applicant's election of Group I including claims 1-13 and 17-20 in the reply filed on 26 November 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 14-16 and 21-22 to inventions non-elected without traverse. Accordingly, claims 14-16 and 21-22 have been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

#### **In The Claims**

Claims 14-16 and 21-22 have been cancelled.

A telephone call was made to Mark A. Superko on 14 February 2005 to cancel the non-elected claims 14-16 and 21-22, but did not result in an amendment being made.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose an ion implanter system and/or method having means for detecting at least one particle level within an ion beam based on a received laser beam that has been transmitted through the ion beam as recited in claims 1 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
